1956

As long as man has existed on earth, he has looked to the stars for inspiration and hope in appreciation of their beauty, in wonder at their size, and in curiosity about the forces that guide the universe. Now, man is preparing to explore his solar system. Its possibilities are just coming within his reach of understanding, while those of other parts of our galaxy are yet scarcely imaginable.

Faculty

The sun, the core of our solar system, illuminates and vitalizes every other part. Similarly our teachers, the center of school life, shed light on every subject and give inspiration to every pupil throughout the school. To the teachers who stimulate us toward a wise selection of our goals, We, the Class of 1956, dedicate our KEY.

Seniors

As comets traveling from the depths of space pass through the solar system, they change course and shine with their own and the sun's reflected light. In like manner the seniors in their progress through school vary direction and enlarge their goals as they try new skills in the light of their own and reflected ideas.

The Last Will and Testament of the Class of 1956

We, the Seniors of the Class of 1956, being of hollow head, feeble body, and demented mind, do hereby will and bequeath to the following under the powers vested in us, all of our sweet, sweet memories and other unfit possessions. After prolonged consultation, consideration, and complete waste of time regarding the disposal of our fortunes, we, the Seniors, shall apportion our estate thus:

- To Mr. Sabin we leave our sincere appreciation for his guidance and understanding during our five-year adventure at Franklin
- For Mr. Francis we have secured permission to share with Ding Dong School's own Miss Francis the melodic bell to wake up all the sleepy-eyed students each morning
- Miss Sullivan we leave a deluxe helicopter so she can avoid the four o'clock rush on her way to River Campus
- all senior homeroom teachers we leave a king-size box of Pabulum and sympathy. But if they have seen us they can take anything
- Miss Martens we leave a 24 inch color television set for her waiting room and a red and white whistle to clear court when her lunch hour arrives
- Mr. Staker we bequeath a set of bells for his toes so that the kids will have enough time to stash away their lunches when he tinkles his approach
